

Free math worksheet

1. Work out each sum:

$75 - 31 = \underline{\quad\quad\quad}$

$64 - 40 = \underline{\quad\quad\quad}$

$75 - 67 = \underline{\quad\quad\quad}$

$93 - 12 = \underline{\quad\quad\quad}$

$79 - 41 = \underline{\quad\quad\quad}$

$60 - 10 = \underline{\quad\quad\quad}$

$92 - 47 = \underline{\quad\quad\quad}$

$82 - 10 = \underline{\quad\quad\quad}$

$58 - 24 = \underline{\quad\quad\quad}$

$63 - 61 = \underline{\quad\quad\quad}$

$60 - 14 = \underline{\quad\quad\quad}$

$80 - 70 = \underline{\quad\quad\quad}$

$61 - 24 = \underline{\quad\quad\quad}$

$50 - 10 = \underline{\quad\quad\quad}$

$66 - 23 = \underline{\quad\quad\quad}$

$73 - 64 = \underline{\quad\quad\quad}$

$78 - 49 = \underline{\quad\quad\quad}$

$51 - 32 = \underline{\quad\quad\quad}$

$77 - 38 = \underline{\quad\quad\quad}$

$97 - 52 = \underline{\quad\quad\quad}$

2. Fill inn the blanks

$\underline{83} - \underline{\quad} = \underline{3}$

$\underline{65} - \underline{\quad} = \underline{57}$

$\underline{\quad} - \underline{24} = \underline{46}$

$\underline{\quad} - \underline{46} = \underline{25}$

$\underline{91} - \underline{\quad} = \underline{18}$

$\underline{96} - \underline{\quad} = \underline{71}$

$\underline{\quad} - \underline{54} = \underline{11}$

$\underline{\quad} - \underline{35} = \underline{49}$

$\underline{58} - \underline{\quad} = \underline{12}$

$\underline{59} - \underline{\quad} = \underline{23}$

$\underline{\quad} - \underline{74} = \underline{22}$

$\underline{\quad} - \underline{5} = \underline{60}$

$\underline{70} - \underline{\quad} = \underline{10}$

$\underline{95} - \underline{\quad} = \underline{32}$
